### Financial services

*A good financial accounting system is essential for an organisation's continuity. Therefore, it is important to have an expert back office conducting the financial accounting at a professional level.*

The financial specialists of MOS ensure that the financial matters of your organisation are dealt with professionally. Their wide experience in taking over and implementing financial accounting systems and the diverse range of our clients' wishes enable MOS to adjust the financial accounting system to those specific wishes.

### Accounting

Our services to you may include:

- invoicing
- reminder procedure
- debtor and creditor management
- cash management
- funds management
- reporting
- preparing and supervising audit committee
- drawing up tax returns

### Scope

Each organisation is different. Therefore, MOS adjusts the package of services to be provided to the wishes of its clients. The accounting is organised in such manner as best suited to your organisation. Because MOS allocates the activities to be performed to various employees working at the relevant level, MOS can offer your organisation a competitive and attractive rate.
